GREENGUARD® GOLD CERTIFICATION

Hush Acoustics has achieved full GreenGuard® Gold sustainability certification, a mark of excellence that ensures our products meet strict standards for low chemical emissions, promoting healthier indoor air quality.

This recognition gives architects, designers, and consumers confidence in choosing Hush for environmentally responsible solutions. Beyond sustainability, Hush's felt products offer excellent sound-absorbing properties, making them ideal for creating quieter, more comfortable spaces.

SUSTAINABILITY

Manufactured from 100% PET(60% recycled material), our felt products demonstrate our commitment to both environmental stewardship and functional design, contributing to a greener and quieter future. It comprising of flame-retardant fiber as new material ensuring ASTM E84 class A certification. The high strength of PET panels in comparison to its weight is the key to its superior energy efficiency.

FUNGAL RESISTANT

Independently tested by EMSL Canada, Hush P.E.T. felt showed zero mold growth under ASTM C1338 laboratory conditions, confirming exceptional durability.

WARRANTY

2 year limited warranty. See F.A.Q. page on our website for more information.

2. Select Size

See [page 4](#) for full size chart

3. Select Colour

Element

Luxe Series

Wood Grains

Concrete & Stone Grains

Trees

INSTALLATION INSTRUCTIONS

1. Locate the structural center support, and also the three connection rings.

2. Now place the three connection rings onto the center support, spacing them to match the connection notches on the Tree profile.

3. Insert the Tree profile onto the connection ring.

4. Ensure that the 'lock' notch is fully engaged into the connection ring, this will hold the Tree profile securely in place and prevent it from coming loose.

5. Repeat this process for the three connection points on the Tree profile as shown below.

6. Repeat this process for the remaining Tree profile sections until all available notches on the connection ring have been filled. Your Tree install is now complete.

COLOUR MATCH SERVICES

Can't find the tone you're looking for?

Hush Acoustics' felt Colour Match services enhance architectural projects with rich visuals and tactile appeal, whether for panels, murals, or other design applications. Our felt brings depth and sophistication to any space, offering a customizable and memorable design element that elevates the overall experience.

With advanced equipment, we produce high-resolution, colour-accurate results that capture subtle gradients and fine textures, all while maintaining acoustic performance. Every Colour Match is carefully managed by our Senior Graphic Designer to ensure that the final output closely aligns with the designer's original vision.

Commonly Matched Materials (matte finishes only):

Wall Paints

Dulux, Benjamin Moore, Behr, and other popular brands

Pantone® Hues

We simulate your company's brand tones using the Pantone® Uncoated palette

Fabric

From linen to wool, we match not just the colour, but also the texture in most of the cases

Stones

We can simulate a wide variety of stone types based on your needs

Wood Laminates

WilsonArt and other popular brands

Generic Textures

Get in touch with our Acoustic Specialists, we will be glad to assist you
